Thank you for choosing HOTEEL.

Build Your Outdoor Haven

Made in China

Before Starting Assembly:

- Read all instructions thoroughly.
- Open and check boxes for parts list.
- If any parts are broken or missing, please call or email customer service.
- Keep all packaging until you are satisfied with your product.
- Returns are not accepted without original packaging.
- Make sure you have ample space for assembly.

Safety Information

- Tighten each bolt firmly and properly. Do not completely tighten screws until all screws are started.
- Some parts may contain sharp edges. Wear protective gloves as necessary.
- Children under the age of 16 should not be engaged in the assembly, removal or disassembly of the product. Children under the age of 10 should be supervised by a competent adult while using this furniture.
- Please keep children out of the assembly area during assembly.
- Never use this product as a support. Do not shake, lean, or climb on the product at any time.
- Do not erect the structure in heavy winds or inclement weather.
- Do not leave up this unit for extended periods of time, as it is not a permanent structure or designed to withstand sustained wind or rain. It is a temporary shelter that shields you from sunlight and rain.
- The screens also block flying insects.
- Do not use candles, matches, or any open flames near the tent.

DANGER: Do not allow children to play with plastic wraps or small parts to prevent potential chocking hazard.

CAUTION: Read all the instructions before assembly. Failure to do so may result in faulty assembly and potential injury!

Pre Assembly Note

1. Three or more people are required for assembly.

2. You will need one or more stepladders.

3. For ease of construction, you may need to use a drill.

4. You may need a safety hat.
Mind Roof Panel Falling!
Do NOT stand under the roof except the installer with a safety hat!

5. Wearing protective gloves is recommended.

6. Use the allen key in the box.

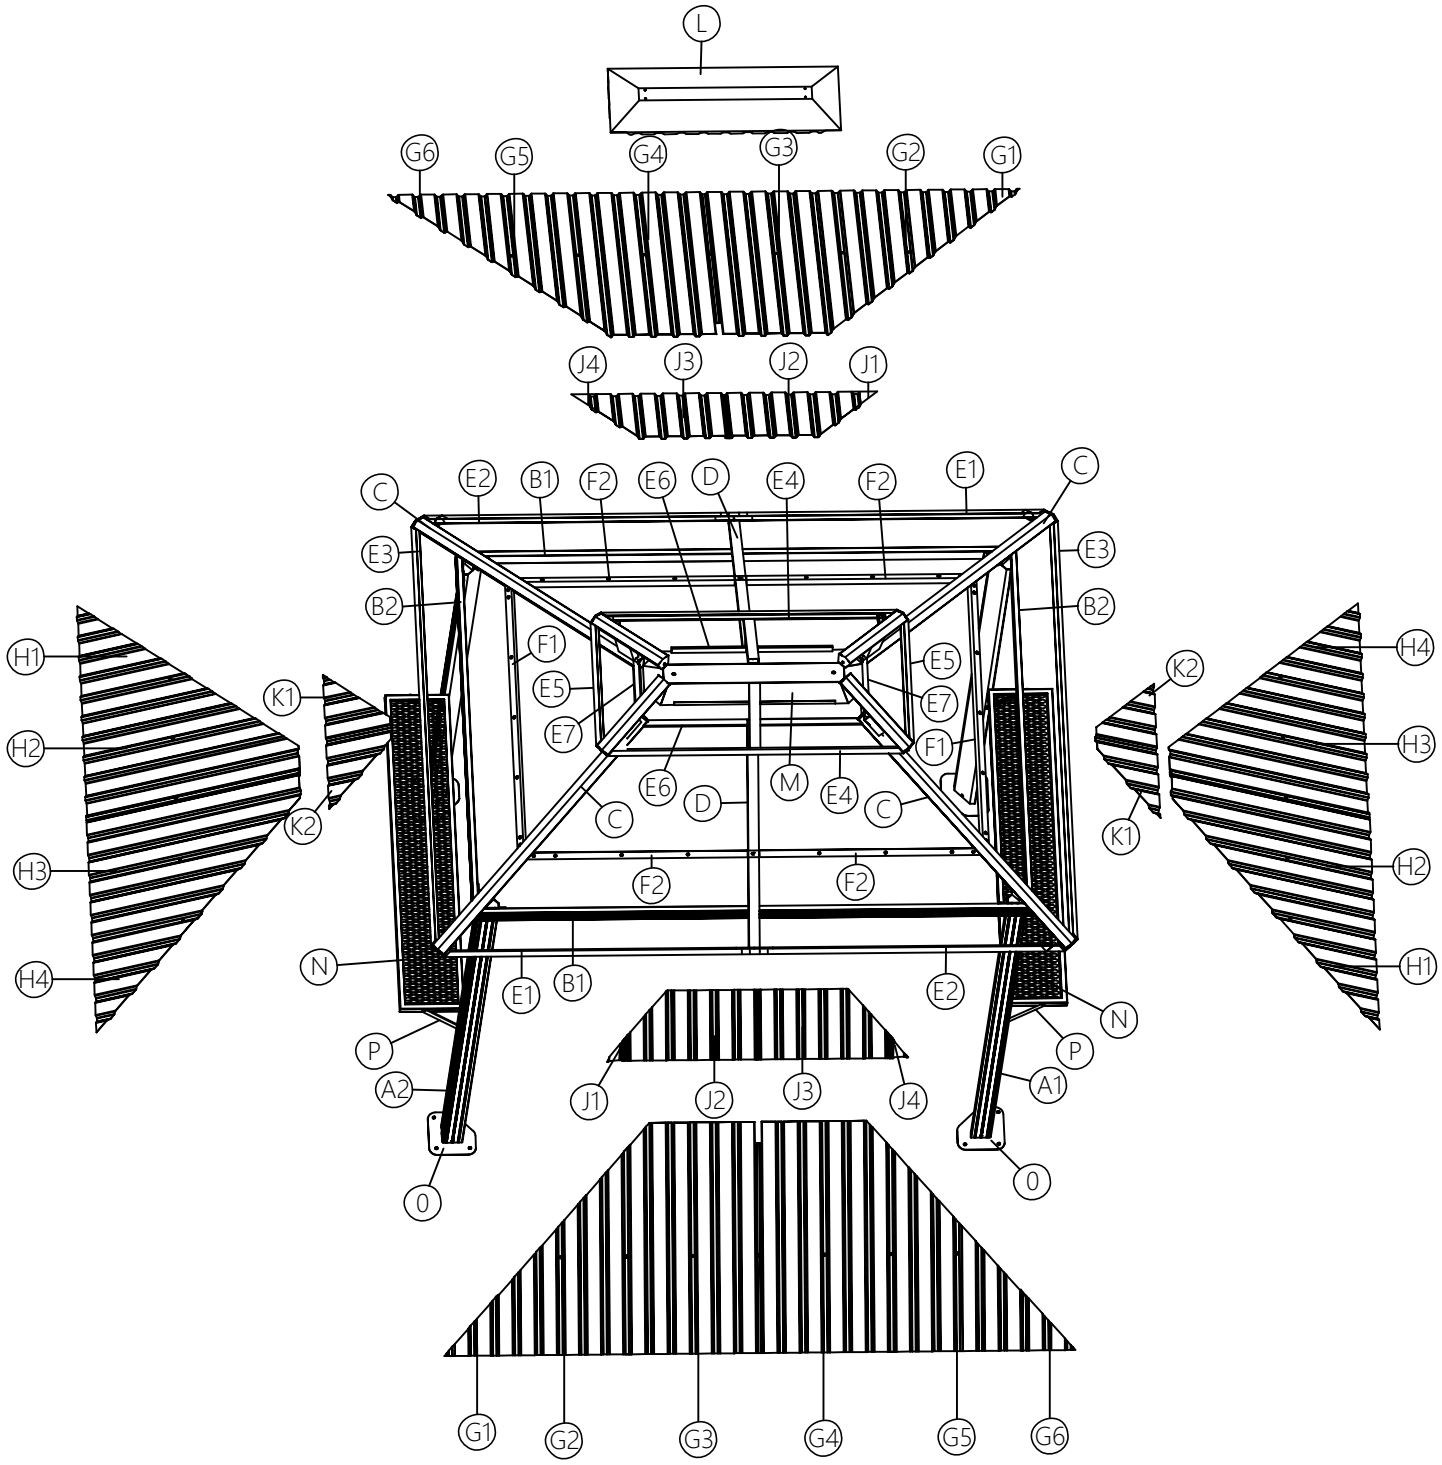

7. Please use a Phillips screwdriver.

8. Do not fully tighten screws prior to complete assembly.

Complete Installation

To improve wind resistance, be sure to complete this installation step. If expansion screws or ground nails are not installed, strong winds may topple the gazebo.
Expansion screws are essential for stability on cement surfaces,and ground nails are for grassy surfaces.
In the end, check all screws are fixed tightly before using.
